- **Obstetrics Care Topic Report and Recommendations**
 - Eliminate elective deliveries with no medical necessity before the 39th week, decrease elective inductions of labor between 39 and 41 weeks, and decrease unsupported variation among Washington hospitals in primary C-section rate
- **Cardiology Topic: Appropriateness of Percutaneous Coronary Interventions (PCI)**
 - Increase measurement and reporting of PCI appropriateness and decrease variation in inappropriate PCI interventions
- **Potentially Avoidable Readmissions**
 - Published “30-day, All-cause Rehospitalization Rates at Washington Hospitals from 2011 CHARS Data” November 2013
- **Spine/Low Back Pain Report and Recommendations**
 - Hospital membership in Spine SCOAP
 - Appropriate identification, evaluation, and management of low back pain and greater awareness within the general public
- **Accountable Payment Models**
 - Total Knee and Total Hip Replacement Bundle and Warranty
